Course in Functional Neurovascular Anatomy

November 1 - 5, 2017, Delhi, India

The Functional Neurovascular Anatomy course is a comprehensive and didactic review of the embryology and vascular anatomy of the spine, brain, and head and neck. The course comprises lectures, 3D anatomic sessions as well as interactive workshops on angiographic images and on workstations with 3D DSA images.

The course has been created for neuroradiologists, radiologists, neurologists and neurosurgeons with particular interest in neurovascular diseases. It may be interesting to physicians in training to become INR specialists as well as senior physicians who wish to refresh their knowledge in functional neurovascular anatomy.

CME-credits have been applied for. The course has previously been granted 27 CME credits by the UEMS-EACCME® (convertible to AMA PRA category 1 credits) and is compliant with the Eucomed Code of Ethical Business Practice.

The maximum number of participants is 50.

The detailed course program as well as instructions for registration and payment is on the WFITN website:

<http://www.wfitn.org>
