

Dear WFITN members!

We hope you started this exciting 2019 year with success and fortune! In Asia, we just celebrated New Year in lunar calendar. “Pig’s Year” according to the Oriental Zodiac and Pig supposedly represent fortune and success.

On behalf of the WFITN subcommittee members, we are presenting a proposal for a new interactive website that we have worked and discussed for the last few months. I hope this proposal is not merely our subcommittee’s own plan; rather we are inviting every WFITN member to participate and give us some constructive feedbacks.

## Site Map

Our goal is to create a new “easy-access” interactive website for WFITN providing high quality contents, real-time communication through live webcast and live chat between lecturers and viewers. We expect to establish a leading education site which serves as an information sharing platform with regular updates and latest high-quality contents among

radiologists. Running this specialized “sub-menu” within the WFITN website will be a lot of work: namely, streaming, networking, and system management. However, we believe it will be worth it.

The purpose of this letter is to ask you whether you have any other opinions before implementation of more specific plans. Please do not hesitate to send us your opinion and ask any questions.

Thank you so much for your consideration and hope to hear from you.

Please let us know if you have any questions and concerns. Every comment counts!

Subcommittee on Educational website of WFITN
